

DAYSTRONG SUPERBA TIGHTENING ROLLS

**DayStrong 835 Gray Roll with Gray End Caps
for the 1S Superba Machine**

The DayStrong 835 gray roll with gray end caps was developed to meet the demands of the carpet industry for a roll that will process all types of fiber, nylon, acrylic, wool, polypropylene & polyester including PET on the 1S Superba machines

<p>Gray End Caps</p>	<p>Developed to meet the demands of the carpet industry for a roll that will process fibers on the standard Superba machine that requires high temperature and pressure settings. The gray 90 Shore A end cap is formulated to resist the wear and tear from the side plates and lamellas on the standard Superba machine.</p>
<p>Gray Main Body</p>	<p>66 Shore A, specially formulated nitrile rubber for outstanding abrasion, chemical, tear and heat resistance.</p>
<p>Lifetime</p>	<p>Roll life depends on many factors – condition of side plates, lamellas, bearings, counter bands, metal belts, pressure settings, type of fiber, bulk of fiber being processed and temperature. DayStrong rolls provide excellent life under all conditions with lifetimes ranging from 3 months to over 9 months depending on running conditions.</p>
<p>Services</p>	<p>Recovering of customer cores - New metal cores with rubber covering - Roll exchange program</p>
